The unity of art and life was the goal of the Art Nouveau movement, the prelude to modernity. On the basis of shared ideas, its adherents strove for a homogenous style, which nonetheless took on manifold variations in its expression. Dr. Gabriele Fahr-Becker explores this artistic movement in architecture, interior decor, furniture design, silver and gold smithery, ceramics and glasswork, graphic arts and painting. The author leads her readers through the diverse national variations of Art Nouveau in Europe and the United States. The significance of the literary and philosophical as well as cultural and political background is explained by means of many theories and writings by artists and their contemporaries. The countless permutations of Art Nouveau are woven into a complex and yet distinctive picture of this artistic movement at the turn of the twentieth century.

Great book!

By genius

I love this book!!! It is a heavy glossy, big, hard cover book that can serve you as a decoration in your living room. But the most important is that it is a reference book in history of Art Nouveau. A must in your library!

A gorgeous work and a great value

By Amateur des arts

This book presents all of the most important artists of the art nouveau movement, and many others who are less well known. The text is clearly written, informative, and well researched without being dry or academic, and the illustrations are of excellent quality. Painting, architecture, graphic design, and decorative arts are given equal and balanced treatment. The price is amazingly low, given the high production values. I recommend this for anyone interested in art nouveau, including scholars of art history as well as lovers of good art (and good books).

Beautiful book!

By E. C. Wright

Gorgeous and informative! I'm an interior design student and this book served as a wonderful reference for the period. Completely worth purchasing and beautiful enough I may gift it to friends in the future.
