Funny, filthy

By RDD

Aurelio Voltaire's "Fifty Shades of Greys" posits a unique thought experiment: what if aliens life forms learned everything they know about humanity through smut? The result is this book, which educates the reader about different fetishes using puns based on science fiction. Funny, filthy, and surprisingly educational, Voltaire's "Fifty Shades of Greys" will entertain fans of Adam Mansbach's "Go the F**k to Sleep" and other adult-oriented picture books.
