A book for all ages

By Michael L. Ulrey

I was introduced to this book in a class provided by the company I work for. The class was entitled "Thinking Outside the Box". This class has been attended by executives and managers at large corporations the world over. I'm sure no one in the class expected the last activity to be reading "Hope for the Flowers" aloud. Although this is a "children's" book, it can be appreciated at many levels. I'm sure children will find it very entertaining and moving. However, the specific message relevant to adults is that "following the crowd" in the corporate world can be an empty pursuit, and that we all need to recognize the possibility of reaching for higher goals. The story is engaging, with two charming caterpillars as the main characters, and the beautiful illustrations of them and their exploits are very imaginative. We should all aspire to be butterflies!
