Saved my relationship

By Mike Roma

Truly helpful. I can say that this book has helped me appreciate for my girlfriend and, most importantly, helped me recognize her appreciation for me.

My girlfriend is one out of a million. I'm not really a romantic, but I wanted to show her my appreciation. This book has been a revealing read to me, and probably saved my relationship.

Being a good boyfriend is not rocket science, but sometimes we need to read books like this one to remember what we should do to return to the right path. Yes, being a good boyfriend, and making your

girlfriend happy, does take work but, if she is the right one, there's nothing more important to fight for, is there?

The author provides in the book a lot of information about seeing things from your partner's perspective, which I realized I wasn't doing it at all!... despite feeling that I was. This is something quite important in a relationship because, as the author states in the book, to make your woman happy you need to know exactly what she wants.

In addition, there are a lot of messages about being true to yourself and your core values. Women want men with a strong character, who are willing to improve themselves.

Finally, I feel like the way this book is written lends itself well to both genders. I lent it to my girlfriend and noticed her incorporating some of the lessons.

Definitely a revealing read. This book made me strive to be a better boyfriend and it improved my relationship with my partner and with people in general. It did exactly what it said it would. Highly recommended.
