Brad Gustafson, @GustafsonBrad, Minnesota's 2016 National Distinguished Principal, and author of Renegade Leadership

"Reading Kids Deserve It! brought tears to my eyes. It's exactly the book that students and parents wish their teachers would read and implement in school. After each chapter (e.g., 'Don't live on an Island' and 'Choices and Decisions') there are challenging questions to help the reader reflect more deeply as well as real, hands-on ideas to spark creativity and support connecting and caring.

"Especially useful are suggestions on how to find 'your people' online and tap into the power of living in the

connected world. This empowers the reader to reach out and learn new professional skills and become part of a creative community of educators. A community focused less on 'getting by' and taking the easy way, and more on #imaginingwhatyoucando to change lives and to help kids--and those who love them--become part of the global community of learning."

"In Kids Deserve It!, Todd and Adam weave a series of evocative, real-life stories through a tapestry of well-thought-out and heartfelt advice. Be bold, be brave, model, innovate, connect, embrace uncertainty and discomfort, and continually learn and evolve. It's an outstanding read for educators at any level."

Angela Maiers, @AngelaMaiers, educator, author, speaker, founder of Choose2Matter

"Slam Dunk! Nesloney and Welcome have written a book that truly shifts mindsets. For too long, school has been about compliance. Nesloney and Welcome shatter this belief and take dead aim at changing the world! They believe in kids first, and as you read Kids Deserve It!, you'll quickly find practical, sensible ways to begin shifting your school, classroom, and--most importantly--mindset. My absolute favorite part is in chapter seven: Showcasing ways to do 'The Little Things' is often overlooked by adults. I love the practical methods of shifting to a student-centric culture!

Hands-Down...Kids Deserve It! will lift you up and empower you to be the change our students need."

Ben Gilpin, @BenjaminGilpin, principal at Warner Elementary and co-author of Redesigning Learning Spaces with Corwin

This book provides that affirmation that so many educators need, especially when they are losing hope in the system and questioning the importance of our profession."

Nicholas Ferroni, @NicholasFerroni, educator, writer, civil rights activist, and People Magazine's Sexiest

Teacher of the Year

By Joelle Trayers

I was very much looking forward to receiving this book and I was not disappointed. When you have been teaching as long as I have, it's hard to find ways to keep what you are doing in the classroom fresh and exciting. I related to many of the ideas in this book and was inspired to continue taking risks and pushing those boundaries-regardless of what others think. I highly recommend this book to any educator who is trying to remain innovative and relevant.

"Kids Deserve It! is an inspired, concise book filled with actionable takeaways to fuel educators at every level. Whether you are a parent, teacher, or administrator, this powerful little collection of ideas and stories will nurture your spirit and refresh your memory about why you chose to work with kids in the first place. Sit back and let Adam and Todd take you on a journey to remind you of the heroism of what you do. I am inspired by the impact they have made in amplifying their message to scale through social media. Their connection to kids, their insight, and their enthusiasm continue to inspire. And without question, #kidsdeserveit."

Erik Wahl, @ErikWahl, artist, author, ambassador for kids

"This is more than a book. Reading Kids Deserve It! felt more like I was having coffee with two great friends; we laughed together...we even cried a couple of times...and when the book was over, I felt inspired to change the world for kids.

Adam Welcome and Todd Nesloney have shown me what it feels like to hold inspiration in my hands. That inspiration is their new book, Kids Deserve It! I dare you to read it and NOT feel empowered to do something awesome for kids."

Brad Gustafson, @GustafsonBrad, Minnesota's 2016 National Distinguished Principal, and author of Renegade Leadership

"Reading Kids Deserve It! brought tears to my eyes. It's exactly the book that students and parents wish their teachers would read and implement in school. After each chapter (e.g., 'Don't live on an Island' and 'Choices and Decisions') there are challenging questions to help the reader reflect more deeply as well as real, hands-on ideas to spark creativity and support connecting and caring.

"Especially useful are suggestions on how to find 'your people' online and tap into the power of living in the connected world. This empowers the reader to reach out and learn new professional skills and become part of a creative community of educators. A community focused less on 'getting by' and taking the easy way, and more on #imaginingwhatyoucando to change lives and to help kids--and those who love them--become part

of the global community of learning."

Jack Andraka, @JackAndraka, inventor, student, Jefferson Award winner, National Geographic explorer

"In Kids Deserve It!, Todd and Adam weave a series of evocative, real-life stories through a tapestry of well-thought-out and heartfelt advice. The result is a thoughtful formula for putting students at the center of our education universe. Be bold, be brave, model, innovate, connect, embrace uncertainty and discomfort, and continually learn and evolve. It's an outstanding read for educators at any level."

Angela Maiers, @AngelaMaiers, educator, author, speaker, founder of Choose2Matter

"Slam Dunk! Nesloney and Welcome have written a book that truly shifts mindsets. For too long, school has been about compliance. Nesloney and Welcome shatter this belief and take dead aim at changing the world! They believe in kids first, and as you read Kids Deserve It!, you'll quickly find practical, sensible ways to begin shifting your school, classroom, and--most importantly--mindset. My absolute favorite part is in chapter seven: Showcasing ways to do 'The Little Things' is often overlooked by adults. I love the practical methods of shifting to a student-centric culture!

Hands-Down...Kids Deserve It! will lift you up and empower you to be the change our students need."

Ben Gilpin, @BenjaminGilpin, principal at Warner Elementary and co-author of Redesigning Learning Spaces with Corwin

"Kids Deserve It! It's a simple thought that all of our students deserve the best education possible. Who can argue with that? Through their very thoughtful, practical, and common-sense approach, Adam Welcome and Todd Nesloney show not only that kids deserve it, but give readers the necessary steps to get it done."

Peter DeWitt, @PeterMDewitt, Ed.D., author/consultant, Finding Common Ground blog (Education Week)

Gail Connelly, Executive Director of the National Association of Elementary School Principals

"Todd and Adam have written something that should become mandatory reading for all aspiring and veteran educators. It truly reinforces what all great educators know: That teaching is so much more about inspiring and encouraging than informing and examining. That the messenger is more important than the message, and that students can and will achieve amazing things when they know that someone believes they can. This book provides that affirmation that so many educators need, especially when they are losing hope in the system and questioning the importance of our profession."

Nicholas Ferroni, @NicholasFerroni, educator, writer, civil rights activist, and People Magazine's Sexiest Teacher of the Year

"Kids Deserve It! is an awesome testimony to the IMPACT of educators who are willing to not only take

chances in their classrooms, but also venture outside of their comfort zones to stay relevant to their students! Todd and Adam beautifully illustrate how the rewards of 'going out on a limb' definitely outweigh the risks. MUST READ for all educators!"

Daisy Dyer Duerr, @DaisyDyerDuerr, NASSP Digital Principal, Redesigning Rural Education founder, education speaker & consultant

"Kids Deserve It! cuts through the clutter and gets to the heart of what matters most in education: relationships. Todd and Adam provide real, actionable stories about struggles they've faced in their combined two decades of educating kids from an array of socioeconomic backgrounds. This book comes as the role of technology is reaching increasing importance within the world of education. It's a reminder that it's not just the technology that will help kids thrive, but the people behind it."

Brett Kopf, @BrettKopf, co-founder and CEO of Remind

"Kids Deserve It! is a book for teachers who need inspiration to step out of their comfort zones to reach the kind of exciting learning that should take place in schools. Why? Our students do deserve that we show them learning is meaningful, and this book provides the motivation, stories, and steps to transform our classrooms."

Shelly Sanchez Terrell, @ShellTerrell, teacher trainer and author of The 30 Goals Challenge for Teachers

"Education is a field where we must innovate to survive, where we have to push boundaries and do something different, where relationships are key. Todd and Adam take those ideas and put them into one place. Kids Deserve It is that place. Good is no longer good enough; our kids deserve more."
