In one of his most penetrating books, Kreeft ponders the meaning of a terminal illness we all have: death. The three vital questions of Life, Death, and God are approached through a variety of human experiences. Kreeft's book is a new statement of the Christian vision: the meaning of our existence, and of death, is the fulfillment of our deepest desire for the infinite joy and love of God.

Wonderfully perceptive

By Craig K. Galer

This is my favorite of all of Peter Kreeft's books, and I've read most of them. One might expect a book about death to be depressing, but this book is full of hope and joy.

Kreeft, as always, is wonderfully perceptive, and draws some really sharp insights. For instance, he notes the double meaning in saying that death is the "end" of life - both its termination, but also its consummation (or even its "goal"). "If death is not meaningful, then life, in the final analysis, is not meaning-full. For death is the final analysis...Life cannot be meaningful in the short run and meaningless in the long run, because the long run is the meaning of the short run." Wonderful.

His analogy between death and birth is especially perceptive. The child in the womb is warm and secure, and outside the womb is - he knows not what (although he might have some inklings of the "world beyond" - muffled voices and the like). Birth is a painful thing, and yet he is born into a world infinitely wider and richer than the womb, and he is infinitely freer in the "outside world" than he was in the womb. Even so, we are comfortable in this world, and at any rate, this world is all we know (although we might have inklings of a "world beyond"). Death, like birth, involves pain. Is it possible that death, like birth, brings us into a wider, richer, freer existence than we had before?

And, as the child in the womb draws his life from his mother, he cannot SEE his mother, much less KNOW her AS A PERSON until he is born. Is it possible that, just as, in this world, we can't see God, death brings

us into a new relationship with Him ("then we shall see face-to-face")? Food for contemplation, perhaps.

This is a wonderful book; it points in some very profound directions.

Moving!

By D. Becker

This is a beautifully written and moving book on death-on being mortal. It is written with depth and soul that few books on death can match. Masterfully written Kreeft indicates that we go thru stages to finally appreciate the value death can have in making us whole persons. Kreeft with finesse has interwoven quotes from literature, mythology, poetry and religion.

If you read my other reviews you will note i dont give out praise easily-but this book was written by someone divinely inspired.
