Cute, heartwarming, PG-13 romance.....

By Amazon Customer

This was a cute, fairly clean, PG-13 romance book. Book was well written, characters were adorable and story just makes you feel good. This is the story of Celine, who is a graduate school student, but is currently working as a hotel housekeeper to earn extra money to go visit her family in France. While in the job, Celine literally runs into Pierce in his hotel room while he gets out of the shower completely naked. Immediately, they are both shocked, attracted and petrified. Celine tries to make a hasty retreat, only to be stopped by Pierce. He gets dressed and makes a proposition to her, to come work for him as his new niece's nanny.

He is the typical confirmed bachelor, rich, gorgeous, hard working and knew nothing about being a father. He finds himself desperate, but one look at Celine and he knew she would be the perfect candidate to take care of Kylie. Celine goes to meet Kylie and after one encounter, she knew she had to help this little girl who was in desperate need of love and affection.

Soon Celine moves in and they begin their "instant" family. Being around each other, sharing time together with Kylie makes them both closer and they slowly begin to fall in love for each other. Neither one of them say anything, afraid of ruining their employer/employee relationships. At the same time, the attraction

continues to mount. Will they both take that chance and open up? That is for you to find out.

Story is fairly short and things move along pretty quickly. There is no huge drama or anything of that nature. The ending is predictable, but getting there was sweet. Not bad, for small price tag!

Sweet Contemporary Romance

By NReads

Maid in the USA is the second installment to the Bad Boy Billionaires series and what a great addition to the series it is! While I enjoyed the first installment, "Tamed by the Billionaire," this one blew me away.

This story hooked me from the first page. It begins with Celine Santini and Pierce D'Amato's first meeting. No, it was not a formal introduction with polite handshakes and "Nice to meet yous." Rather, it was Pierce fully naked coming out of the bathroom and Celine standing in horror in the hotel room as she walks in on him while doing her job as a hotel housekeeper. From there, the story unfolds as Pierce asks Celine to be a temporary nanny for his four-year old niece, Kylie. Hence, Celine takes the job as a way to help pay through school. Never did she imagine that she'll find love in two places at once: one in Pierce and one in Kylie.

Oh, how I love this novella! I loved the pacing, the sizzling chemistry and tension, as well as the plot and storyline. To say the least, I didn't want the story to end! The characters were fleshed out and I loved the buildup of Celine and Pierce's relationship. As these two spend time together in close proximity, sparks fly and their chemistry is undeniable. Overall, I absolutely loved this story. With that said, I highly recommend this for those looking for a fun, fast, emotional, and clean romantic escape!
