Fine

Kind of predictable, very hot.

It's fine I guess, it's like every lesbian story, they met, one of them hit on the other one, they drink and then they do stuff. They fall in love and will be together forever and ever..

Erotic all right but a romance?

By Amazon Customer

If you want an erotic love scene, you,'ll find it here. If you want romance and slow development of

characters you come to care about, then you won,t find it here. The supporting cast is all stereotypes from the bestial sex craving men who get drunk and pass out to the non-english speaking gondolier who makes all three ride together. No character development at all which is so unlike some of the writer's other books. Two stars for the love scene only.
