# PERFECT STATE (KINDLE SINGLE) BY BRANDON SANDERSON PDF

From the author of *Legion* and the #1 New York Times bestselling *Stormlight Archive* comes an action-filled novella about privilege, culture clash, and expectations.

God-Emperor Kairominas is lord of all he surveys. He has defeated all foes, has united the entire world beneath his rule, and has mastered the arcane arts. He spends his time sparring with his nemesis, who keeps trying to invade Kai's world.

Except for today. Today, Kai has to go on a date.

Forces have conspired to require him to meet with his equal—a woman from another world who has achieved just as much as he has. What happens when the most important man in the world is forced to have dinner with the most important woman in the world?

What comes next after you've conquered the world?

By RavenRing

"On the three-hundredth anniversary of my birth, I finally managed to conquer the world."

So starts *Perfect State*, a clever little sci-fi story about reality, emperors, and dating. The main character, God-Emperor Kairominas, was surprisingly easy to relate to, even though, as of the quarter-century anniversary of my birth, I have yet to conquer anything. The other characters don't get much time to shine, but Shale and Bask made good use of their appearances and I liked both of them a great deal.

The story is fast paced and humorous, though the ending gets a little... serious. However, it is a really short

story (about 71 Kindle pages). Calling it a "novella" feels misleading. To me, novella implies a short novel. Perfect States is really just a short story. I would have purchased it regardless, but would have preferred to know how short it was beforehand (NOTE: when I purchased the book and at the time I wrote the review, the page count for this story had not been posted).

The only Sanderson work I don't like

By Ashley Person

I feel bad giving this such a low rating as Sanderson is my favorite living fantasy author, but I really didn't like this one. The plot had an interesting premise but I found the interaction between Kairominas and Sophie cringeworthy, which is terrible because Brandon normally writes such great female characters. It took me out of the story and the resolution, which was unexpected, wasn't enough to redeem it for me. I found myself wandering what on earth the point was at the end.

Quick and enjoyable read

By Amazon Customer

Great quick read. I'm not a fast reader and it took me a couple hours tops. Brandon Sanderson has an incredible talent for writing books that look effortless. The ideas and storyline in the beginning are complex but I knew it would come together the more I read and it did.

\*Beginning of possible spoiler (it's scene setting not plot revealing)\*. Its set in a Matrix-esq world (think brains in jars) and each brain (Person) gets their own stimulated world (everyone else in that world is a program with a concept) built around them. The Person that the world is built around can interact with other real People in Border States but our Main Character doesn't do that much. Also, the real person is told that they are in a stimulation when they reach age 50 by what is known as the Wode.

\*End of possible spoiler\*

The premise is intriguing and fun and the story takes us on an adventure where the main character is pushed to do some self discovery. I definitely recommend this and any book by Brandon Sanderson. He always leaves me wanting more. I am ready for the next installment of Perfect State!! If you are familiar with Sanderson's other work it has the same flow as the two Legion books. It is a very short read and it is absolutely incredible what Brandon Sanderson accomplished in so few pages. If I had a book club I would love to go over this book with them. I have questions!! Any book that leaves me thinking about the plot long after I read it is something to be cherished. Keep on writing Mr. Sanderson! Oh and for any parents out there - it does touch upon sex. Read first so you can decide if you want to pass it along.
