Helpful, fun, and entertaining

By JayStarr

I bought this book because it is on the recommended list for my leadership organization. I dove right in to discover my own personality type (no surprise, there) and others', as well. This book shows you why different people think and act as they do and then teaches you how to communicate and get along with the different personality types. Does your spouse or friend or child (or boss) drive you crazy (or vice versa)? Find out how to get along and even enjoy each other's company. Personality Plus should be on everyone's reading list.

Great Book.

By Amazon Customer

A great book. I had read it about 20 years ago, lost my copy somewhere, so this was a replacement. It was to some degree a life-changing experience the first time I read it. I am reading it again, and still liking it. Also laughing a good bit.
