RELIGIONS IN PRACTICE: AN APPROACH TO THE ANTHROPOLOGY OF RELIGION (5TH EDITION) BY JOHN R. BOWEN PDF

This widely used textbook offers a unique perspective on how people engage in everyday religious practices--such as prayer, sacrifice, initiation, and healing--by investigating broad-scale issues, such as transnationalism, gender, and religious laws.

No other text examines the full spectrum of religions, from small-scale societies to full-blown “world religious movements.” The in-depth treatment of Islam, Hinduism, and Christianity is of particular interest to students, and is easily expanded to include field projects directly related to material covered in the text. As one reviewer writes, “In our post 9/11 era, it is great to have a book whose author has done fieldwork in Indonesia and is so knowledgeable about Islam.”

textbook anthropological approach to religion

By Wyote

John Bowen, a professor at Washington University in St. Louis, wrote this as a college textbook for anthropology of religion. For this it is excellent. It is also really good for lay readers looking for an introduction to this field. It includes a review of religious studies theories from Hegel and Edward Tylor to Clifford Geertz. It includes examples from many religious traditions commonly studied--Catholicism, Islam, Judaism, Umbanda, Native American traditions, Cargo cults, Japanese New Religions, Quakers, Mormonism, Hinduism; a good breadth indeed.

His chapters are: 1) Elements and Theories of Religion; 2) Doctrine and Practice in Tension; 3) Transitions in Life and Death; 4) Extending Our Powers: "Magic" and Healing; 5) Explaining Misfortune: Witchcraft and Sorcery; 6) Sacrifice Contested; 7) Prohibitions and Boundaries; 8) Objects, Images, and Worship; 9) Sacred Speech and Divine Power; 10) Places and Pilgrims; 11) Religious Authority and Religious Movements; 12) The Place of Religions in Modern Nation-States.

The book is expensive, so unless you find it used or really want it, I wouldn't buy it. But I really wanted it, and wasn't at all disappointed.

Anthropology Major Must Have

By Bryan Contreras

I really like this book and it's great to know the different kinds of Religions its origins and how each culture

use religions differently or to cope with their situations in life. I'm a Anthropology major and we don't have that many Anthropology of Religion classes, so using this book helped a lot of us students didn't know as much like the professor thought we did. So great book and great price.

Anthropology of Religion

By Brendan Nicholas

This is a book is one of the texts set for one of my second year Anthropology classes. We use the texts almost exclusively, and I have found the texts and course facinating. Cheers.

Brendan Nicholas.
