Volume 1

Entwined Chronicles

Billy Star knows what he witnessed in the frozen woods so long ago is impossible. There are no such thing as monsters, and there is no way that his brother was brutally murdered by one. So he suffers his fate in silence.

William Schutte had always known that the grizzly crime scene of years ago was a travesty. No wolf pack could cause the absolute depravity that his search team found in the frozen North Woods.

Now more bodies are surfacing, fresh kills from a grim unknown, and Schutte and young Billy must find and face the cause, before everything they love is destroyed.

This book has everything and then some...

By Charlie85

This story has everything it's fast-paced, it has so many twists and turns that you don't see coming. The author truly has a gift for conveying the reality of her characters' experiences. Desmond's characters are flawed, gritty and real. With every setback the two main characters faces the reader finds themselves grinning and inwardly saying to themselves, "Oh hell yeah!" The monster in this story is so terrifying one of its victims' it posses literally gouges out his own eyes to rid himself of the horrors he witnessed in his mind.

What was most poignant to me as a reader was how the "real" monster in this story is not of the science fiction variety; instead the true monster here is undoubtedly humanity itself and the truly malicious and evil things we are capable of doing to each other. These atrocious acts prove more harmful and terrifying compared to any monster we could possibly imagine. Brilliant first installment, I absolutely cannot wait for more!! A Real Page-Turner....

By GunslinginGirl

If you're searching for a real page-turner of a novella, then grab a copy of Sixteen. The author has proven herself as a masterful storyteller, both in introducing genuine characters and creating unique plot lines. In a time when one suspense story seems to be a cookie-cutter version of the last, Desmond gives us something crisp and new. One bit of advice: This author knows how to keep readers in suspense, so be prepared to sleep with the lights on.
