Review

Richard Brennan explains coherently how the Alexander Technique can help to release muscular tension. The demonstration photographs are particularly good and compliment the text. If you suffer from back pain or muscular tension of any sort, the Alexander Technique is worth a try and this is the book to introduce you to it."

The Irish Times

What lifts The Alexander Technique Manual way out of the ruck of other self-help books is the exceptionally good colour photography - including multi-exposure ones to express movement. It is a pleasure to look at and amply justifies the big format, making the book both attractive and remarkably good value.

Books Ireland

This book is illustrated with tons of glorious full-colour step-by-step photographs on nearly every page. Each one successfully communicating the subtle movements visually, which means the reader can actually understand how the technique works. This manual is guaranteed to help you to discover its full potential."

Here's Health

Excellent and beautifully-illustrated guide to the Alexander technique of postural (and emotional) realignment to combat the abuses we unconsciously heap on our skeletons and muscles daily. This book stands out not only for leading practioner Richard Brennan's clarity of expression but also for its thoughtful explanations and application of the technique to special situations - playing musical instruments, pregnancy and birth, driving, and during sport. You need lessons from a qualified teacher to start with, but this book is an excellent initial overview and offers support during and after training. (Kirkus UK)

About the Author

Richard Brennan is a fully qualified teacher of the Alexander Technique and runs a busy practice in Galway, Ireland. He also holds courses and gives talks throughout Europe and has been a pioneer in bringing the

Technique to a worldwide audience. He lives in Galway, Ireland.

THE ALEXANDER TECHNIQUE MANUAL BY RICHARD BRENNAN PDF

The Alexander Technique is a simple yet profound way to release muscular tension throughout the body. It teaches us new ways of sitting, standing, and moving that put less stress on the bones and joints and help us move more gracefully. Developed by Fredrick Matthias Alexander, this technique explores the physical law of cause and effect and applies it to everyday common ailments. The Alexander Technique Manual explains how to reduce stress levels to achieve a happier and more fulfilling lifestyle and reveals how Alexander made his unique discoveries. Simple step-by-step instructions aided by specially commissioned color photographs will enhance your understanding of the underlying principles of the technique. Special sections covering a wide range of sports as well as pregnancy and childbirth make this simple yet comprehensive book a must for anyone wishing to improve their lifestyle. The Alexander Technique Manual will help you move through life with greater ease. * A step-by-step guide to improve breathing, posture, and well-being. * The first complete color-illustrated guide to this world-famous technique. * Written by an established author in this field.

Most helpful customer reviews

1 of 1 people found the following review helpful.

Aware living

By John Read

Provides instruction and guidance for moment-by-moment balance and awareness, much like an extension of zazen and yoga to walking, running, standing, sitting, child-birth, turning on a light switch. Simple instructions like 'picture any action the instant prior to doing it.'

This also dispels such notions about the Alexander Technique as doing-a-movement 'right'. It has nothing to do with Right or Wrong, just with aware living each moment.

3 of 3 people found the following review helpful.

The Alexander Technique Manual: Take Control of Your Posture and Your Life

By Happy Reviewer

This was an excellent book for someone like myself who was looking for literature that would enable me to get significant benefit from the Alexander technique without taking lessons. My goal was to apply the technique to piano which I am trying to relearn in my senior years. What I learned in the book is helping me a lot.
