What is a book...

By AL

Great art, while it not not contain the complete works of any one game it offers a nice variety of all 3 games. I wish it contained any of the in-game bestiary or character profiles that Jorge Benedito drew, that in itself could fill its own book. Not even Kojima herself drew every monster and character in game. Definitely for anyone whos a fan of the series, old or new.

Beautiful art book of all three games

By Sofia Edwards

Strong and sturdy with gorgeous high quality pages depicting concept art from Lords of Shadow, Mirror of Fate, and Lords of Shadow 2. Also shows scenes from Mirror of Fate in early storyboards, which is always very interesting to see.

Wonderful collectible piece for any diehard Castlevania fan and an amazing asset for any prospective concept artists out there.

Great artbook

By Aleryn

I purchased this for a friend but had to page through it first to verify it's quality.

The content covers the first Lord of Shadow game very extensively. The backstory summations of important characters alongside many illustrations give the book a very cohesive and useful tone for fans. It also covers the new sequel to Lords of Shadow but its more of a late addition compared to the breadth of content about the first game.

If you're a fan that enjoyed the art of the series it is easy to recommend purchasing it.
