I have trouble imagining such a large number of men and 1 woman fitting into anyone's treehouse, no matter how well-built it is. The sex scenes were predictable at best and full of language no woman in her early 20s would use. "Rectum"? Really?! And would a co-ed really call her step-uncle "Buddy"? Anyone who visits a college campus for even one day would see that she does not talk like real women her age would.

I realize this is a fantasy, but the best fantasies are rooted in reality and must be somewhat believable. I'd love to see this story through a more realistic filter, in which the protagonist feels genuine mortification by her actions at the hands of equally-embarrassed male relatives. Maybe this incident brings Holly and her step-dad closer. Maybe he ships her off to some sexy therapist. Maybe this creates lingering tensions that finally blossom into lust. Maybe they end up skinny-dipping in the pool or eating a romantic dinner together au natural. Or maybe she has an awkward heart-to-heart with her step-dad and uncles before anything kinky takes place.

Has anyone ever considered a CMNF nature walk between a naked Holly and her fully-clothed step-dad and step-uncles? It would be quite a memorable experience for all of them.

REMEMBER: Building up smoldering sexual tension is every bit as important as "doing the deed."
