So this way, be an excellent user currently!

THE WITCHING NIGHT BY LESLIE WALLER PDF

Armchair Fiction presents extra large paperback editions of the best in classic horror novels. In “The Witching Night,” Leslie Waller spins a dark tale of black magic and murder. Dr. Joe Loomis, a young, well-grounded MD who operated a small clinic in Chicago, found he couldn’t save his close friend, Colin Jones, from the unbearable agony of a strange affliction. In fact, it was an affliction Loomis hadn’t even been able to diagnose. After his unfortunate friend’s strange death, circumstances eventually led him into a series of fantastic events. He made the acquaintance of the beautiful but mysterious Abbie Cowper and her confederates, the satanic Dune Dwellers, whose Mass of Saint-Sécaire he secretly witnessed. Afterward, with the onset of intense, incessant headaches that began to destroy his ability to think and to sleep, Joe Loomis realized he would soon be the next victim of a power beyond the realm of science, and perhaps beyond the realm of God. It then became obvious that the saving of his own life would be a race against time—a race it seemed he was destined to lose...

the simple fact is that sustaining the sensations of terror and horror in this elongated form is no easy task and that the short

By Bruce E. Dettman

Although the most famous works of supernatural fiction ever penned -- Frankenstein, Dracula, Dr. Jekyll and Mr. Hyde, The Picture of Dorian Gray etc. -- are indeed novels, the simple fact is that sustaining the sensations of terror and horror in this elongated form is no easy task and that the short story form is usually better suited for the creation of those elements designed to produce shivers in its readers. Although today in the Stephen King era the horror novel has become a staple of publishing this wasn't always the case and it was a rare occasion that the full-length horror novel resonated with much of the reading public.

Writing under the name C.S. Cody, author Leslie Waller fashioned one of his first books, The Witching Night, in 1942. It's too bad it got lost in the shuffle because it's a pretty effective yarn which is somewhat reminiscent of the sort of stuff authors like the better-known Fritz Leiber and others of the “Weird Tales” era were turning out, namely a scenario where a modern urban character comes face to face with some ancient supernatural manifestations and influences. The writing is lean and the dialog and descriptive passages are sometimes suggestive of hardboiled detective fiction of the period with Cody/Waller keeping things moving at a good clip. There are also a few surprises in store for those readers who might think they see everything coming well in advance.
