TRUST ME (THE DONOVAN FAMILY BOOK 4) BY MARGARET WATSON PDF

Raine Taylor has one goal – justice for her murdered sister. She knows Genie's husband strangled her and left her in an alley – Peter had been threatening to kill his wife for years. The police said there was no proof Peter Northrup killed Genie. So it was up to Raine to make him pay.

When Detective Connor Donovan answers a call about a trespasser outside Northrup's house, he finds a woman running down the street. When he tries to stop her, he's left holding her hoodie as she strikes out like a ninja then vanishes like smoke.

Connor quickly realizes Raine is his mysterious trespasser. Now he has to figure out why she was outside Northrup's house at three A.M. Raine isn't his usual criminal – she's a schoolteacher who coaches a taekwon-do team of under-privileged girls. And he's wildly attracted to her.

Raine needs to stay away from Connor. She has a plan to deal with Northrup, and she can't get involved with a cop. But like two magnets drawing together, she can't resist him. Can Connor help her find justice for Genie? Or will her sister's killer claim another victim before they can stop him?

Good read from start to finish

By Mary Gramlich

Raine Taylor has no reason to believe in any law enforcement system. especially the police who have done nothing but brush her off when it comes to her sister's murder. She knows who did it and if justice is a dish best served cold than this man is going to know what that feels like after she kicks him to the curb. Raine can defend herself and has honed her martial arts skills to perfection, so goading a murderer is not going to have her break a sweat. But Detective Connor Donovan disagrees with her less than great idea and is going to use

all of his charms to convince her otherwise especially since he knows what her amazing plan of action is and he does not like it one little bit. Connor and his family have been in law enforcement longer than he likes to think about which given him an edge on getting to the bottom of things. Problem for Connor right now is he is distracted by Raine the woman, and being lost in thought of a gorgeous woman is when you make mistakes.

Convincing Raine to even have a meal with him was a herculean effort but once she did a bigger problem erupted with their inability to keep a comfortable, professional distance. To say there is chemistry between them would be an understatement since they just light up the night with a soul searching kiss. Both know they need to keep a clear head and when an agreement between them to work on resolving Raine's sisters murder together becomes the best resolution Connor starts to question his judgment. Connor knows Raine wants revenge not justice but he feels teamwork is the only way to keep her safe is if he is right by her side on the street and in the bedroom nonstop. A relationship may freak them both out, and adjusting to something akin to an emotion neither wants to claim is an issue but two great minds can solve a murder or so they hope.

Raine and Connor battle each other as much as they do together but one thing is for sure they can take care of the bad guys during the day and draw strength in each other's arms every night. No matter what tries to come between them life is so much better when they are together.

I can't wait to read more from the author

By Cranky - The Book Curmudgeon

Although this is book four in the series, it can easily be read as a standalone.

This story centers on Connor Donovan and similar to the rest of his family, he's involved in law enforcement.

A detective, Connor usually doesn't take the type of phone call about people trespassing. It's below his jurisdiction, but that fateful call is going to change his life.

Arriving at the scene, he encounters a woman running and when he engages her, all he's left with is an item of clothing and a bruised chest from the kick she delivers before vanishing. Not one to be deterred, Connor is determined to uncover the mysterious woman.

Raine Taylor is a martial arts sensei, training underprivileged girls. Her goal, however, is to find the evidence to prove her brother-in-law murdered her sister. This may take her to the edge and over legal channels. The last thing she wants is to get involved with a cop.

If you like romantic suspense, this was a great story with twists and turns along the way. The tension between the two leads was palpable.

Raine is a force to be reckoned with and sometimes, I found her trying. She's still likable and heroic though.

Connor's relationship with his family was fantastic. They support each other and they're the type of family we all want.

I can't wait to read more from this author and am about to pick up earlier works in the series. I'm a big fan now of the Donovan family.

With thanks to Shy vs. The Writer.

Excellent!

By stacejb

This was my favorite book of the series so far.

I loved Raine. A teacher/tae kwon do instructor at the school, she's very determined to do what's right for the people around her, even risking her own safety to help her students. I also liked that even though she's an independent woman, she's not afraid to admit she needs help proving her sister's husband was the one who killed her.

Connor was great. Even though Raine was fiercely independent, he was patient and waited her out until she admitted she needed his help. Instead of thinking she was crazy he immediately believed her and set aside time to help get justice for her sister. He even took interest in tae kwon do and in Raine's students, which he didn't have to do.

The other Donovan siblings make appearances, as does Rose, their mother. We once again see how great they are with each other, how quickly they accept Raine as one of their own, and how they band together in a time of crisis.

This book could be read as a stand-alone, but I recommend reading the other books in the series as well simply because they're good.
