From Library Journal

Whitehead reviews the design concerns and considerations presented in residential interior and exterior lighting. Proceeding room by room, the book offers an abundance of photographs that show various lighting, such as track, recessed, and the like, with captions detailing how the lighting is used to create a look or to solve a problem. Although not a how-to book, this will give amateurs as well as professionals an idea of how to use lighting to create dramatic effects. An author-recommended list of architects and interior and lighting designers as well as a glossary concludes the work. A fine choice for larger collections.

Published in 1988, still highly relevant 27 years later

By Bill Beau

I commissioned one of the workspaces selected to appear in this book, so I'm not without bias. The Interior Design firm I used gave me a copy of this book when it was published in 1988. I find that the selections for this book have aged well! The book offers dozens of contemporary, near-modernist offices, some of which were huge spaces and others, like mine, that were very small in scale. So, the book has merit in the disparate sizes of its selections. Additionally, it segments the workspaces by Industry (e.g., Banking, Insurance, Consultants and Law Offices. High Tech firms...) helping the reader to discover best practices within narrow corporate segments. The photographs are uniformly good and occasionally magnificent!

Lastly, the book does a bit of double duty, serving as both a reference work and a coffee table book.

Excellent examples of interior designs

By Richard Perez (iluvmacs@icepr.com)

If you're looking for ideas or examples of modern office interior design, then this book is a must have. Many full page color photos highlighting furniture, lighting, floors, desks, and tables as they actually are used. Text is concise and easy to read.

A nice book

By Flavio Galvao de Franca

Very good photographs and reviews inside, but there's a lack of technical drawings to give us a better understanding of the projects.
