Thick fantastic collection of art from 1987 to present day

By Parka

[[VIDEOID:moS1MVS4WFI11N]]This is one thick 280-page artbook for fans of the Ys video game series.

The original book is the Japanese edition ??? THE?????? released in 2013, and this English edition is from Udon.

There are lots to see considering that they packed artworks from the first game that released in 1987 to the latest one in 2012 which is Ys: Memories of Celceta.

Below's the full list of games included and it seems they left out Ys IV.

Ys

Ys II

Ys III: Wanderers from Ys

Ys V: Ushinawareta Suna no Miyako Kefin

Ys Eternal

Ys II: Eternal

Ys I & II Complete

Ys VI: The Ark of Napishtim

Ys: The Oath in Felghana

Ys Origin

Ys I & II Chronicles

Ys Seven

Ys vs. Sora no Kiseki Alternative Saga

Ys: Memories of Celcetra

It's quite interesting to see the evolution of the game art over a period of two decades. They started out with traditional media art, then moved into digital painting, and the most recent ones have more anime style colouring.

In essence, it's a character design book. It feels like there are over a hundred characters. Miscellaneous art such as locations, props are few. Illustrations are wonderful. There are standalone character art, splash pages and some story scenes.

There aren't any commentary except for notes beside some artworks. Since the games are from so long ago, and there aren't any game summaries, you probably have to go to Wikipedia to get your memories refreshed.

Overall, it's a fantastic collection recommended to all Ys fans.

(See more pictures of the book on my blog. Just visit my Amazon profile for the link.)

Decent art book for fans of the Ys series

By Kevin M. Armstrong

I have had my eye on this book for a while now and decided to get one with a gift card I got as a birthday gift. I've played many of the Ys games throughout the years and have enjoyed them all. I remember my mom bringing me home one day a used copy of the Ys III: Wanderers from Ys game for the Super Nintendo back in the mid 90's or so. Back then I had no idea what this was and no clue there were other titles out there. We were mainly a Nintendo family back then. Wow, that game was tough and it pretty much just sat there. Glad I was able to play the redone version on the PC a few ago. Falcom has made some really great games.

The Good: The art in this book is done very well. You can tell how it has changed over the years and it all looks great. It's fun to look over the images of the games I've played in the past and definitely makes me want to do it again.

The Bad: I'm not happy with the order of the book. I wish they started with oldest to newest. I don't care about the timeline of the games which by the way I hate when writers go back to a time before their first game or movie but I won't stress over it much. 2 more criticisms I have. Where the heck is the 4th game? I would really like an explanation and I wish there was more explanation about each game, just something written by the artists and the creators of the games in the back of the book would have been nice.

Conclusion: Despite my criticisms I am still very happy with the book. It is definitely a must buy for the fans or really anyone. Good way to get someone who never played a game. I wish there were more materials out there but I will take what I can get. I even bought the The Ark of Napishtim guide by Bradygames a year ago just because it's an awesome game. It even had some art work in the back.

Just Buy It !!!

By Weikuang Wong

Some people collect stamps, coins, baseball cards or comic books. I don't do that. Instead, I collect all the best art books. If you collect art books like I do I would say definitely buy this one. The artwork is just amazing!!! If I could give this more than 5 stars, I definitely would. This really is a "must have book." I would recommend this to anyone reading this review.

I also own almost all the other Udon Entertainment art books and I would like to take the time to recommend them all. In my opinion Udon is just the best of the best. I don't work for them. I don't get paid by them. I'm just a fan of their art books.
